

16th Harrogate Beavers

2012 - 2013

We have had a very busy year. We started the year working towards our Creative Challenge badge and our Experiment and Explore Activity badges. We had a very wet nature walk and collected a variety of leaves to create an autumn place-mat.

We learnt about magnets, built some fantastic Lego models and decorated some biscuits. In the new year we had a keep fit session, learnt some Pilates moves and tasted some healthy foods; all working towards our Fitness Challenge badge. We then learnt about keeping safe; the green cross code, water safety code, dangers around the house and stranger danger; our Safety Activity badge.

In March we had a snowy spring walk to the park!

In the summer term we worked really hard and earned our Emergency Aid 1 badge, Global Challenge badge and our Healthy Eating badge. We learnt how to open an airway, treat minor cuts and what to do at the scene of an accident. We then had an exciting trip to the Fire Station.

We finished off the year making fruit salad, pizza and sandwiches. We had an extremely hot trip to the park where we cooled ourselves down playing with the parachute!

During the year we have had several Beavers achieve their Bronze Award. They receive this if they have got all their Challenge badges. This requires a great deal of hard work and determination.

Well done, keep having fun!
